Abram Powers, Farmington,

We have the pleasure of announcing that ve have entered into arrangement with CHARLES DICKENS, for the issue of his new publication satisfied "ALL THE YEAR ROUND," each sail. in May York simultaneously with its lesse in London, places being taken from the English poblication for that purpose. The first number will appear in London and New York on Wednesday. John D. Zimmerman, Union City, Michigan, May 4th, and will contain the commencement of a new story by CHARLES DICKERS, to be continued

od from week to week during about eight months.

Thus it will be seen that American readers of "ALL THE YEAR ROUND." will obtain the stories and other contributions of Mr. Duxes, and the staff of writers associated with him, embracing an array of distinguished ralent with which as publication can compare, ceveral weeks in advance of their reaching this country through ordinary sources, and at the same time they are given a the public in London. We will state that this arrangement has been

consummated by the payment of a large roo , Henry Bowman, Johnstown, Barry Co. Mich. mozer to Mr. Dickens, yet the extraording est which the announcement of the publication has excited in literary circles, the applicance when Mr. Dickens has given that he shall deveters it ail his best energies and the appearance of a beg story from his pen, cannot fait in command for SOUTHERN FLOUR. At come a large circulation.

The following announcement from Mr. Dickers will convey an idea of the sharacter and aims of

Nine years of Household Words are the best as surance that onn be offered to the public of the spirit and objects of 'ALL THE YEAR ROUND' in transferring myself, and my strongest teen continued, to the publication that is about to begin.

I have the happiness of taking with me that staf of writers with whom I have labored, and all the inerary business co-operation that can make my work a pleasure. In some important respects, las now free greatly to advance on past arrangement. Those I leave to testify for t emselves in for

course. That fusion of the graces of the imagination with the realities of life, which is vital to the welfare of any dominuoity, and for which I have striven from week to week as honestly as I could during the last nine years, will continue to be striven for, "all the year round." The old weekly cares and duties become things of the Past, merely to be assumed, with an increased love furthem and brighter boom springing out of them, in the Present and the Future.

I look, and plan, for a very much wider sirele of readers, and yet again for a steatily expanding circle of readers in the projects I hope to sarry through "all the year round." And I feel coef-Groceries, Foreign and Domestic Fruits at dent that this expectation will be realized, if a deserves realization.

The tack of my new journal is set, and it will steadily try to work the tack out. Its pages that show to good purpose their motto is remembed in them, and with how much of fidelity and ears. estness they tell.
